CAD-40M MK II

40 Watt/Channel Pure Class A Mono Blocks

CARY
Audio Design

A New Vision in Music and Technology.

There are many reasons to own the CAD-40M MK II.

Performance. Since their introduction, these pure Class A mono block amplifiers have become some of the most desirable tube audio amplifiers in the high-end audio world. They're capable of driving the most demanding speakers with a sound that is nothing short of phenomenal.

Craftsmanship. The CAD-40M MK II has the unmistakable appearance and attention to detail that is the hallmark of Cary Audio Design. With its chrome plated chassis, distinctive face plate, and well thought out topology, the CAD-40M MK II is as much a work of art as of technology.

Pride. The CAD-40M MKII will fill your listening hours with pleasure. They're a constant reminder of the style, taste, and appreciation for the finest that fills the rest of your life.

These are all good reasons to own the CAD-40M MK II. But there is one reason that is more important than any other. It is simply *because you love the music.*

Music is an emotion. When music is very good, you want to be a part of it, to go inside it. To experience it as the performer intended. The CAD-40M MK II invites you inside the music to a place where you can experience it as never before. A

place where strings are sweeter, translucent, and more romantic. Where the lows have more texture, intensity, and focus. Where vocals have a clarity, a presence, you'll never tire of.

The CAD-40M MK II epitomizes the art of high-end audio.

This is one of the most exotic amplifiers you can buy. A pure Class A amplifier that operates in a push-pull configuration and generates a solid 40 watts of power per channel. Cary Audio Design builds every one of their amplifiers to the highest commercial standards. Hand wired point to point, the CAD-40M MK II is burned in at the factory for 48 hours. This means you'll have a trouble free amplifier the first time, and every time, you turn it on. And you'll find listening to EL34 tubes in Class A mode with the CAD-40M MK II a unique treat.

Music presentation with the CAD-40M MK II is so direct, so satisfying, so sensuous, you'll hear nuances, subtleties, you've never heard before. Experience the CAD-40M MK II. We believe it will change the way you listen to music. *Forever.*

Unit Specifications:

Weight:	25 lbs.	Power		AC Power	117/234 Volts
Dimensions:	7" H x 5.5" W x 19"D	Transformer(s):	1 ea EI Laminate, 200% Duty	Requirements:	50-60 Hz
Circuit Type:	Push/Pull, Pure Class A	Output	1 ea EI Laminate, Tetrode,	Consumption:	125 Watts Standby
Power Output:	40 Watts	Transformer(s):	200% Duty		200 Watts Operation
Input Sensitivity:	1.5 Volts	Resistors:	1% Metal Film	Warm-Up Time:	3 Minutes
Noise and Hum:	-80 dB	Capacitors:	Polypropylene, Optional Oil Filled	Break-In Time:	100 Hours
Frequency Response:	10 Hz ~ 30 KHz +/- .75 dB	Power Supply		Finish:	Black Anodized
Tubes:	1 ea 6SL7 Input 2 ea EL34 Output	Capacitors:	2 ea 1200 uF @450 Volts		Faceplate, Chrome
		AC Cord:	3 Conductor, Attached		Plated Stainless Steel Chassis
